

PEX 500

Heated Portable Extractor

The **PEX 500** is the result of years of extensive engineering and design experience coming together with customer feedback to create one of the most powerful and user-friendly portable carpet extractors ever made.

The **PEX 500** is designed with the end user's needs in mind. Features like upright, dolly design for easy loading, unloading and stair climbing make the **PEX** easy to handle by one person. Wand caddy, retractable cord wrap and large rear wheels make the **PEX** very easy to transport. For maintenance, it doesn't get any easier than the **PEX** pallet design. Simply open the hinged tanks for full access to all internal components on the machine.

But it is the "Easy Transport" features of the **PEX** that crown it already as the king of mobility. A special wand caddy is molded into the design of the machine. A retractable hose wrap holds your vacuum and solution hose. Cord wraps hold your electrical cords. It is the easiest high performance extractor in the world to move through a facility.

For performance, the **PEX** has all the power and versatility you expect from a **HydraMaster/U.S. Products Pro** extractor to have and more! Dual vacuums and on-demand 212°F heat provide unmatched cleaning power, but don't take our word for it, let the proven performance of the CRI Gold certification speak for the power of the **PEX**!

Features & Benefits

"It saved my back! Because of it's upright dolly design, it is so much easier to load and unload out of our van and lift up and down stairs."

Cleaning contractor

"A space and time saver! We can transport the PEX throughout our facility with ease because everything we need can be loaded right into it."

Custodial supervisor

"Deep cleaning with 60-90 minute dry times."

Casino maintenance staff

"Combined with our CMX-20 and Evolution wand, we were knocking our 2,000 square feet per hour."

U.S. PRODUCTS PRO

PEX 500

Features & Benefits

- **Dual 3 stage Vacuums:** Dual vacuums with unrestricted airflow for superior water recovery, NEW innovative fresh air intake for each vacuum improved vacuum life.
- **Heater Element:** In-line, after the pump for longer life and instant heat up to 212 °F at the wand tip, lifetime warranty.
- **Low Moisture System:** Less water combined with higher heat means faster drying, less chance of shrinkage or wicking from the pad.
- **Smart Circuit Locator:** Identifies separate lines to eliminate blown circuits.
- **Tanks & Bodies:** Lightweight, rotationally molded with lifetime warranty against cracks, leaks and dents. Unique pallet design for easy maintenance.
- **Low Noise:** Day-time-quiete operation with innovative sound deadening chamber.
- **Top Warranty:** Industry leading, 2 year parts and labor warranty standard on the PEX Series

Specifications

	PEX 500
Vacuum	Dual 5.7", 3-stage, in series
Vac Shutoff	Ball float
Pump	Positive displacement adjustable 50-500 psi
Waterlift	200"
Heat	Adjustable to 212° F for carpet extraction, or 145°F for upholstery
Heater	2000 Watts
Gauge	Glycerin filled pressure gauge
Wand	Evolution Rotationally Molded Wand, twin tip for 500 psi
Dimensions	39"H x 25"W x 33"L
Weight	110 lbs.
CRI Cert.	GOLD
Part No.	56113004

Features & Benefits

- Smart circuit locator
- Low moisture design
- Low dB for daytime-quiet operation
- 12 gallon solution tank
- 10 gallon recovery tank
- Innovative fresh air intake for each vacuum motor, increased durability
- Two handles for easy maneuverability and loading
- Roller handles for easy loading
- Upright dolly design for easy stair climbing
- Wand caddy for easy transport
- 12" non-marking wheels
- Low solution filling area for easy filling
- 15' high pressure solution line and crushproof vacuum hose (optional 25' available)
- Cords: 2 each 25' detachable 12/3 gauge, hospital grade plugs
- Pressure relief valve
