

Break-Up® Professional Fryer Boil-Out

Break-Up® Professional Fryer Boil-Out liquid formula is specifically designed to degrease and clean food service fryers. Regular cleaning with fryer boil-out enhances the flavor and appearance of foods while improving the life of shortening.

Features and Benefits

- Safe for aluminum
- Non-corrosive and contains no phosphates
- No neutralizing step required after cleaning which is a tremendous time saver
- Low-foaming formula degreases and cleans food service fryers, while preventing boil over
- Heat and chemical action combine to penetrate, emulsify and clean away built-up, carbonized grease
- Portion control pouch helps simplify product handling, eliminates waste and controls fryer cleaning costs
- Dispenser pack case provides easy storage and access to product

Break-Up® Professional Fryer Boil-Out

Use Directions

- Drain fryer, then rinse with water to remove loose soil.
- Close drain and fill fryer with water to oil fill line.
- For a 15–20 lbs. (7.5–10 liter) fryer add one pouch of Break-Up® Professional Fryer Boil-out to fryer. For a 30–40 lbs. (15–20 liter) fryer add two pouches.
- Turn on heat and bring to a boil. Maintain a gentle boil for 10–30 minutes. Control temperature at about 225° F (105° C) to prevent boil over.
- While solution is boiling, use a brush or scraper to loosen soils above the oil fill line.
- Drain fryer and rinse thoroughly with potable water.
- After fryer has cooled, wipe dry with cloth or allow to air dry.
