

SILVERWARE PRESOAK

UTENSIL PRESOAKING LIQUID DETERGENT

FEATURES

- LOOSENS SOILS QUICKLY
- DETARNISHING CAPABILITIES

PRODUCT DESCRIPTION

SILVERWARE PRESOAK is a pre-soak cleaner for tableware and flatware and also a detarnisher for silver. It softens and loosens the toughest food soils for easy removal in the dishmachine. Due to special water conditioning agents, **SILVERWARE PRESOAK** gives excellent results in all water conditions. Oxide removal agents in **SILVERWARE PRESOAK** remove tarnish from silver by safe electrolytic action.

AREAS OF USE

Designed to be used for institutional presoaking of utensils. NEVER pour directly on ware. Keep out of dishmachine.

USE DIRECTIONS

PRE-SOAKING:

1. Add 1 oz. (2 tbsp.) **SILVERWARE PRESOAK** per gallon of warm (120°F) water.
2. Remove excess soil from utensils before submerging in pre-soak solution. Soak until soil is softened.
3. After pre-soaking, wash utensils in normal manner.

DETARNISHING SILVER:

1. Add 1 oz. (2 tbsp.) **SILVERWARE PRESOAK** per gallon of warm water. Submerge aluminum foil in pre-soak solution.
2. Place the silverware in contact with the aluminum foil in the pre-soak solution.
3. Soak for at least 5 minutes. Wash immediately after soaking. DO NOT use aluminum containers or aluminum foil with stainless steel tableware.
