

Vac Pac HEPA

Clean, faster, with HEPA filtration.
Portable, back-mounted vacuum.

Clean faster with better air quality.

The Windsor Kärcher Group Vac Pac HEPA is a portable, back-mounted vacuum that increases productivity, efficiency while saving you money and now it features HEPA quality air filtration standard. With increasingly more attention paid to indoor air quality, high levels of filtration from your cleaning equipment is even more important than ever. Rest assured that our vacuums will now include standard HEPA filtration for 99.9% effectiveness to 0.3 microns, making it the perfect choice in dust sensitive areas.

1 HEPA quality filtration

Maintaining indoor air quality is easy with the Vac Pac HEPA. Our new filtration system filters down to 99.9% effectiveness to 0.3 microns

2 Rugged and simple

Manufactured with molded polyethylene housing, the Vac Pac HEPA's simplistic design is also extremely durable. Able to handle daily use, the Vac Pac HEPA is a long term cleaning investment.

3 Powerful motor

Vacuum with authority using the Vac Pac HEPA. This machine features a 1.7 hp vacuum motor that is sure to lift dirt, dust, and grime from your carpets for a great clean.

4 Ambidextrous

The hose on the Vac Pac HEPA is designed so that both left and right handed operators can comfortably use the machine.

5 No-tool access

Disposal and replacement of filter bags is easy with the Vac Pac HEPA. With quick, no-tool access to the filter bags, time isn't wasted between cleaning jobs.

6 Standard tools

At no additional cost, the Vac Pac HEPA comes standard with the most-used tools; you do not have to purchase them separately. Utilizing these tools transforms this machine from a vacuum into a versatile, multi-use powerhouse for your cleaning needs.

Non-disruptive cleaning.

Daytime cleaning can be frustrating when noisy machines threaten to disrupt business hours. However, with the Windsor Kärcher Group Vac Pac HEPA you can quietly clean without worrying about being a noisy distraction. Operating at a mere 67 dBA, this powerful vacuum is quiet, making it perfect for daytime cleaning.

Hip-mounted power switch

A conveniently located power switch rests at hip level on the Vac Pac HEPA within easy view of the operator. The positioning of this switch means that operators can easily turn the vacuum on and off.

HEPA air filter

Our standard HEPA filter comes with every machine, that is great news considering these machines are often used in sensitive areas such as schools, hospitals and other high traffic areas.

Swivel hose

Greater mobility is easily achieved with the Vac Pac HEPA, which features a swivel hose connection that allows you to go more places with this machine.

Choose your capacity.

For different operators and job requirements, the Vac Pac HEPA comes in two different sizes so that you can choose which size works best for your staff and facility. Available in 6 and 10 quart capacities, the Vac Pac HEPA is conveniently sized to fit your every need.
